

## AN INTRODUCTION TO WANKCOIN

With more than 20 years of experience developing cutting edge technologies and driving advancements in several sectors including: Entertainment, Online Payment Processing, Video and Audio Encoding, Virtual Reality Production, App Development and CPA Advertising Networks, the WankCoin team has a proven track record of identifying and solving longstanding issues in the online world with very positive results. In 2013, the team recognized the difficulties that all payment facilitators in the Adult Entertainment Industry were dealing with as part of their day-to-day operations.

## COST PER TRANSACTION

Banks refuse to work with clients in the industry, the credit card association treats the industry harshly, alternative payment solutions charge up to 35% in fees to process transactions, and the many companies that previously aimed to solve these challenges rarely lasted more than a few months.

### THE SOLUTION

With a keen insider understanding of all the issues affecting payments made within the adult industry for Purchases, Subscriptions, and B2B transactions (along with the additional layer of complexity added to personal banking for executives in the industry), the WankCoin team crafted a solution that moves the entire payment process forward into a new era of simplicity and reliability.

PROTECTS USER INFORMATION

NO RECURRING PAYMENTS

NO HIDDEN CROSS SELLS

NO OVER CHARGING

FASTER/EASIER TRANSACTIONS

DISCREET & SECURE

LOW TRANS-ACTION COST

NO UNFAIR REGULATIONS

NO RISK OF HEFTY FINES

REDUCED LEGAL BURDEN

ELIMINATES CONSUMER FRAUD

IMMEDIATE PAYMENT

## REAL RESULTS

Launched in 2014 as an SHA256 Cryptocurrency Coin, and recently converted to an ERC20 token, WankCoin is a safe, anonymous and secure way to pay for adult entertainment. It protects a consumer's personal information while preventing recurring payments, eliminating hidden or misleading fees and prohibits many forms of consumer fraud. With WankCoin 100% of the money a consumer pays for a product goes directly to the merchant, ensuring the best chance of that money being re-invested back into the product itself, instead of being leeched away by middlemen. Finally, WankCoin removes the burden of unfair and often nonsensical regulations that are imposed by credit card associations on "high risk" industries. That's why WankCoin is already accepted by more than 100+ top brands, including the 2018 Virtual Reality Site of the Year!

- 02 NEXT 200 MILLION 30% BONUS
- 03 NEXT 200 MILLION 20% BONUS
- 04 FINAL 200 MILLION 10% BONUS

### THE FUTURE OF WANKCOIN

The WankCoin team is interested in fostering growth throughout the adult sector and beyond it, but there are 3 main areas that we are currently focused on:

#### VIRTUAL REALITY

WankCoin was created to solve a number of problems with online payments. More recently, our team recognized that no one was producing quality content for use on advanced VR headsets, so we set out to rectify that for consumers. We developed our own technology, created our own solutions and listened to consumer feedback. In January, our first VR product, WankzVR.com, was named the 2018 Virtual Reality site of the Year and access to it can be purchased with WankCoin right now.

#### AUGMENTED REALITY

The natural next step from VR, is AR, and our team is already creating augmented visual effects that mix with users in the real world. As the marketplace evolves, we will bring AR out of our labs and into millions of homes while establishing a symbiotic relationship between WankCoin and the world class content you can purchase with it.

#### AI / ROBOTICS

The WankCoin team also uses advanced machine learning applications to solve complex problems. By blending Artificial Intelligence with an affordable robotic interface the WankCoin team is making significant advancements toward the creation of truly intimate connections with virtual companions that will eventually usher in new ways of entertaining and enriching the personal lives of all digital consumers.

### SUMMARY

WankCoin is an ERC20 Token available for sale to anyone interested in profiting from the continued growth of the adult entertainment industry or other "high risk" merchant verticals online. More than 4 years of active use, behind every WankCoin token, your interest is appreciated, and you are encouraged to read the detailed whitepaper by clicking here, as you create your own account and become part of the next generation of advanced technology investors with us.
